Building on Quality

Westridge Homes has a reputation built on quality and customer satisfaction. The company's last two condominium projects were awarded the 2009 and 2011 Best Condominium Project based on the attention to design and detail. Our dedication to customer service has also earned us a number of Customer Choice Awards. Westridge has been part of the construction industry in Regina for over 20 years and looks forward to continuing to build on this reputation.

Location

The De Marco Pointe Townhomes grace the edge of the established Rosemont neighbourhood. Adjacent to Lewvan Drive, the location provides quick access to all of Regina's amenities and the energetic city center, while being within walking distance of local parks and shopping.

Upgrades

DE MARCO POINTE ♦ By Westridge Homes ♦ 4505 2nd Ave

Available Upgrades:

A. Basement Development:	\$17,000.00
B. Appliance Package:	\$3,750.00
C. Granite Counter Tops:	\$4,000.00
D. Tile Upgrade:	\$2,500.00
E. Blinds for windows:	3,000.00

- A. Note that the basement development will result in a delay of the possession date of up to a month.**
- B. The appliance package includes a stainless microwave with the trim kit, dishwasher, stove, fridge and a white washer/dryer set. If the customer wishes to upgrade the appliances, they can see Neil at Continental Factory Direct. (Any additional costs will need to be paid when ordering.)**
- C. The granite countertops include undermount sinks in the kitchen and the three vanities.**
- D. The tile upgrade changes the upstairs bathroom and laundry room floors to tile and includes a full backsplash in the kitchen with tile to the ceiling behind the sink as well as the range. (Tile behind the range is standard.)**
- E. The window covering package includes cellular blinds for the windows on the main floor and the window at the top of the stairs with faux wood blinds in the bedrooms. If the customer wishes to upgrade they can call Andria at Shademaker Blinds for a quote on the upgrade and pay the difference.**

Specifications

1. Foundation (As per engineer stamped drawings.)

- Perimeter and Interior footings: As per plan with keyway.
- Grade Beams: 8" thick by 30" deep, 25 MPa concrete placed over 6" void form/frost cushion. Reinforcing - 2-15m horizontal top and bottom rebar and 10m stirrups @ 18" on center.
- Basement Walls: 8" thick by 8'-4" high, 25 MPa concrete with exterior damp proofing provided below grade. Reinforcing – 1-15m horizontal rebar top and 1-15m horizontal rebar bottom, plus 5 rows of 10m horizontal rebar equally spaced, and 10m vertical rebar at 16" o.c.
- Continuous weeping tile covered with crushed rock at footing perimeter draining into a sump pit, which is connected to the sewer system.
- Basement Floor Slab: 4" thick, 20 MPa concrete with 10m rebar 16" o.c. each way placed on 6 mil CGSB poly, over 5" crushed rock. Radon Gas caulking at all edges and breaks in slab.
- Garage Slab: 4" thick, 32 MPa concrete with 10m rebar 16" o.c. each way placed on 5" granular base.
- Front Steps: 25 Mpa concrete, reinforced, and cast in place.
- Piles: Additional piles provided for decks and steps as shown and specified on plans.
- Driveway and Sidewalk: 4" thick, 32 Mpa concrete with 10m rebar 16" o.c. each way placed on 5" granular base.

2. Floor System

- Beams: Engineered wood as per design.
- Teleposts: Adjustable steel as per plan.
- Floor Joists: Engineered floor trusses.
- Sub Floor: 3/4" T&G OSB glued and screwed to joists. Bridging and blocking as required.
- Underlay: 3/8" Fiber-lay underlay with glued seams at sheet vinyl flooring areas.

3. Wall System

- Exterior House Walls: 2"x 6" studs @ 16" o.c. by 8 ft high, R20 batt insulation with 6 mil CGSB sealed poly air/vapour barrier. All exterior windows and doors to be sealed in place with spray foam insulation before filling remainder of rough opening with batt insulation.
- Party Walls: Double wall, each consisting of 2"x4" studs @ 16" o.c. with resilient sound channels, R12 batt insulation and 5/8" fireguard gypsum board to each side and one layer of sound suppression board. Both sides of floor trusses and roof trusses above party wall sheathed with 5/8" fireguard gypsum board and fire taped at all joints.
- Garage Walls: 2"x 4" studs @ 16" o.c. R12 batt insulation, with 6 mil CGSB poly air/vapour barrier.
- Exterior wall Sheathing: 3/8" OSB sheathing.
- Interior Walls: 2"x 4" and 2"x 6" studs @ 16" o.c. as per plan.
- Building Exterior Walls in Basement: 2"x 4" studs @ 16" o.c. set away from concrete basement wall, with R20 batt insulation, with 6 mil CGSB sealed poly air/vapour barrier.
